# What is a Vision for Community Wellbeing?

A Vision for Community Wellbeing describes the kind of life that people in **Killaloe Municipal District** want for this and future generations – a community in which all people can thrive.

Although we often think about wellbeing in terms of good physical and mental health, it can also describe the wider conditions we need as individuals and communities to have a better quality of life, healthier environment and increased prosperity.

This shared vision for the future was created through a process that began in October 2020. Clare Public Participation Network consulted with the public via an online survey in which we asked people to think about what would make their area the best it could be for this and future generations.

We then discussed the results with our members at Clare PPN plenary meetings and two online workshops in Killaloe Municipal District, after which this Wellbeing Vision Statement was drafted and adopted.

This vision will be used to guide the work of Clare PPN and its representatives on committees of Clare County Council. It will also be help to inform Clare PPN submissions to local and national policies. This Wellbeing Vision Statement will remain an ‘open’ document that can be reviewed annually so that it remains relevant and open to input from new member groups.

# Vision Statement for Co Clare

Clare is a county that values, protects and restores its unique landscape, environment and biodiversity, where sustainable livelihoods are prioritised for this and future generations and where citizens, migrants, ethnic minorities and people of all abilities, age groups and genders can reach their potential in an atmosphere of support, respect and inclusion, and where Local Government is open, transparent, accountable and committed to reducing poverty and marginalisation within the County. Our vision is for a County to be part of and a County to be proud of.

# Killaloe Municipal District

The Killaloe Municipal District covers an extensive area in the southeast, east and north of County Clare. The Municipal District has a population of 22,940 and incorporates the County's boundary with the River Shannon and Lough Derg from the environs of Limerick City in the southeast to the Galway border in the north and northeast. The Municipal District also extends westward to include lakelands of East Clare, the Slieve Aughty and Slieve Bernagh areas and eastern areas of the Burren. It therefore incorporates an extensive and varied landscape, topography and demographic.

# Participation, Democracy and Good Governance

**People and communities in Killaloe MD are actively involved in the democratic process and in the decisions that affect their lives. People are equipped and encouraged to participate meaningfully in local government and other decision-making structures.**

Local government is well funded, fully transparent and accountable. Constructive steps have been taken to help ensure that young people's voices are included in decision-making and that the gender balance deficit has been addressed. Meetings of Clare County Council, both plenary and committee, are live-streamed over the internet. Following meetings a newsletter issues which explains the who, how and why of the decisions that have been made.

Genuine public consultation is an integral and fundamental part of Clare County Council's mission. The views of people and community

organisations in Clare are actively sought, listened to, valued and incorporated in policy-making. Community Councils have been supported and are given a formal role in participating in local government.

People are well-informed and equipped to understand democracy and participation, through the school curriculum and also public education. Participation is fostered through local 'town hall' style meetings and community-level forums.

Democratic structures favour the interests of people and communities over those of business, where they differ, and also ensure that minority voices are represented.

Community organisations are also transparent and accountable and are supported to meet reasonable governance standards.

# Economy, Work and Resources

**Killaloe MD is a dynamic, attractive place to live, work and visit; sustainable livelihoods are prioritized and there is high-quality infrastructure, education and amenities.**

Locally owned businesses are supported to serve local needs and keep money in the community, and social enterprises are supported. People including those who are disabled are supported to work locally, through remote working hubs, high-speed broadband, high quality public transport and other infrastructure, resulting in revitalised communities and strong local economies.

Social housing and cost rental or affordable housing is available in the MD, helping to give families stability and to encourage people to live and work in Killaloe MD.

Environmentally friendly farming and organic food production are supported. Tourism policy prioritises the domestic market and environmentally sustainable tourism. The potential of Killaloe MD for walking, cycling and water sports tourism has led to employment opportunities across the MD. There is support for community-owned businesses, community farms, farm shops and community cafes. The co-operative model is also supported.

There is strong protection for workers' rights and conditions, including family-friendly, flexible working hours, affordable childcare and a decent living wage. Excellent training opportunities are available, especially for people who are involuntarily unemployed.

# Social & Community Development

**Killaloe MD is a place that embraces diversity and promotes social inclusion. People of all ages, backgrounds and ethnicities feel involved and integrated in the community.**

Safe, well-serviced public spaces, meeting and performance spaces and other social settings are accessible to all. Our community works together to ensure that everyone is valued and supported to realise their potential and to secure the best possible outcomes for all.

Everyone in Clare has a suitable home in a safe and well-connected community. The county is open to all through free or affordable public transport.

The contribution of voluntary and community groups is recognised and valued, and they are supported and resourced for their work in creating and maintaining inclusive communities.

The voices and contributions of all in our community are sought, listened to and valued equally, including youth, older people, migrants, LGBT, people living with disabilities, those experiencing poor mental health and others.

People with disabilities are facilitated and supported to live active lives as full members of the community.

# Environment and Sustainability

**Killaloe MD's unique natural environment, biodiversity and heritage are valued and protected. Land use and farming are organised in a way that produces affordable, nutritious food, protects the environment and gives farmers and food producers a decent living. Organic food production for local sale is supported. People including school children are educated and encouraged to grow their own food.**

Our electricity is generated from renewable energy. Local and national policy strongly favours community-owned wind energy and microgeneration. Homes and public buildings are energy efficient.

Car dependency has been greatly reduced through major investment in public transport and cycling and walking routes. Electric vehicle charging points are located within easy reach of all areas of the MD.

Consumption and waste are both reduced through the use of shared resources. Re-use and recycling are encouraged and facilitated.

Biodiversity is protected and promoted, through the planting of native broad-leaved trees, banning harmful pesticides and herbicides, reduced use of chemical fertilisers and public green spaces being left unmowed. Native woodland is increased in all areas and monoculture forestry is no longer supported. Hedgerows are protected and well managed.

People are empowered to take responsibility for their natural environment through education and initiatives such as community clean-up days. The climate and biodiversity crises are front and centre in all local authority policy and strategy documents.

# Health (Physical & Mental)

**Everyone in Killaloe MD has access to a high standard of affordable, locally- available healthcare – both physical and mental. There is awareness, understanding and support for those dealing with mental health difficulties.**

The role of the natural environment in promoting good health is recognised, and outdoor activities are promoted, including through dedicated cycle and walking paths across the county. Everyone has access to quality recreational facilities and affordable exercise classes.

There are policies and resources such as befriending services in place to reduce isolation and to promote inclusive and supportive

communities, including more non-commercial social spaces and access to public transport and free or low-cost rural transport. Age-friendly housing developments are available in town centres, enabling older people to live and socialise in the centre of the community.

Healthcare provision is locally informed and evidence-based. People with disabilities and special needs are provided with appropriate services and can fully participate in society. Carers are valued and supported to maintain their own quality of life.

Ennis Hospital has been upgraded and provides for local needs, including A&E.

# Values, Culture and Meaning

**Killaloe MD's cultural history is resilient enough not to be threatened by change. It is an open, welcoming and inclusive community with a sense of community pride, a place from which many have emigrated and a place that welcomes migrants. Inclusion and belonging are core values; the value of diversity is promoted. Pride in Irish culture co-exists with a respect for and openness to all cultures.**

Our community has a strong culture of volunteering and neighbourliness. Active learning between generations, cultures and identities is acknowledged and valued.

Killaloe MD prides itself on its community arts, music and radio. It is a place where children

and adults have opportunities to participate in arts, music, sports and cultural activities. Community activities are inclusive and promote equality and interaction between groups. Festivals, celebrations and local publications bring together people from different backgrounds and cultures and allow for cultural exchange.

Traditional Irish culture, including language, music, dancing and storytelling, is valued and celebrated. Traditional crafts and skills are promoted and all aspects of our Irish, emigrant and inward migrants' heritage are recorded and celebrated.
